MARKET BARGAINING STRENGTH,

New York, Aug. 20.—The stock market made further progress toward recovery today, yesterday's rebound from low lovels of the early days of the week being very substantially enhanced on a pronounced expansion of business.

Not only were the day's transactions the Jargest of the week, but they encompassed a more diversified group of stocks, including investment rails, as well as many speculative specialities re-

well as many speculative specialties re-ceptly subjected to severe pressure. While the rally was effected chiefly at the expense of an emboldened bear

faction, commission houses reported signs of a moderate revival of out of town in-terest in steels, equipments and high grad transportations.

Among the developments which evidently contributed to the greater stability of the market were the further success of the Polish offensive, improvement in the important foreign exchange avolations and relaxation in money

rates.

Steels, equipments and olls were the most active stocks, followed by motors was their subsidiaries, rails and shippings. Sugars recovered part of their ions, and tobacco, leather and paper issues featured the specialties, metals also hardening. Profit taking caused the steel integrated recognitions toward the

The bond market falled to keep pace with stocks, either as to tone or activity, although Liberty issues, excepting the 3 1.2's were mosely higher. Among foreign bonds United Kingdom and Belgian issue eased slightly with Anglo-French 5's, while Paris 6's made a fractional gain. Total sales, par value, aggregated \$7,75,000. Old, U. S. bonds were unchanged on call.

Everything is all set for the big series between the Ashland club and Plainfield which starts Sunday at Ashland park.

Plainfield is coming down strong, as far as its team is concerned, and stronger still with its knowd of leather-

lunged fans. In a telephone conversation Friday, Manager Warhurst of Plainfield in-formed the Ashland management that the "royal rooters" were coming down about 800 strong and that noise making devices to help out their voices were at a premium.
